Notice of Poll

Town of Didsbury Municipal Elections

Public notice is hereby given that an election will be held for Councillors for the Town of Didsbury for the year 1913, and that the polling will take place on Monday, the 9th day of December, 1912, from ten o'clock in the forenoon until seven o'clock in the evening, at the Fire Hall, Didsbury, and that I will sum up the votes at the close of the poll and declare the results of the election.

Given under my hand at Didsbury this 2nd day of December, 1912.

J. M. REED.
Returning Officer.

Good Men Nominated

Nominations for Mayor, Councillors and School Trustees for Didsbury took place on Monday in Wrigglesworth's hall.

There was a fairly good turn out of ratepayers to take part in the proceedings and in spite of the fact that some uncertainty existed as to who were eligible for the offices, enough good men were obtained, with some hard work, to fill the offices for the coming year.

The first nomination in was for Mayor, Mr. H. B. Atkins being the nominee. There were no opposing nominations for the Mayor's chair, consequently Mr. Atkins was elected by acclamation for another term, thus making the third term for Mr. Atkins.

The nominations for Councillors included three of the retiring members, Messrs. Wrigglesworth, Shantz and Oliver. The list of those nominated was as follows: Messrs. F. Moyle, W. Wrigglesworth, J. Sinclair, J. R. Good, W. Durrer, D. S. Shantz, H. E. Osmond, R. Oliver, consequently there will be an election for Councillors on Monday next, Dec. 9th.

The former School Trustees, Messrs. Dr. Weart, J. V. Berscht and H. Reiber, were elected by acclamation, showing that the ratepayers generally thought that the work of the School Board for the previous year was satisfactory.

There was some quick work this year in bringing in nominations because the time was limited to one hour, whereas before there was two hours for this work.

Canada West Coal

NO SLATE. NO CLINKERS

Our coal shed and scales are right in yard. You can save time (which means money) by buying your coal from the

H.W.CHAMBERS
— DRUGGIST and STATIONER —

should have rich, red blood and sturdy, healthy bodies to withstand cold rains, changing seasons and winter storms.

If your child is weary when rising—lacks energy and ambition—has no appetite or possibly sallow skin or a pinched face—it is for want of vital body-nourishment; this growing period demands special, concentrated, easily digested food for body-development—mental strain—physical changes.

Scott's Emulsion is the greatest body-builder known—it is nature's wholesome strength-maker—without alcohol or stimulant—makes rosy cheeks, active blood, sturdy frames and sound bodies.

But you must have **SCOTT'S**.
Scott & Bowne, Toronto, Ontario 12-62

Easily Understood

There are words that are common in all tongues alike
On the heart and tympanum they tune
fully strike
Though we can't talk in Turkish and
won't try to talk.
Why, we know that the sultan is yell-
ing "Enough."

Benham—There is a good deal of unrest in the country.
Mrs. Benham—There wouldn't be so much if wives didn't have to sit up for their husbands.

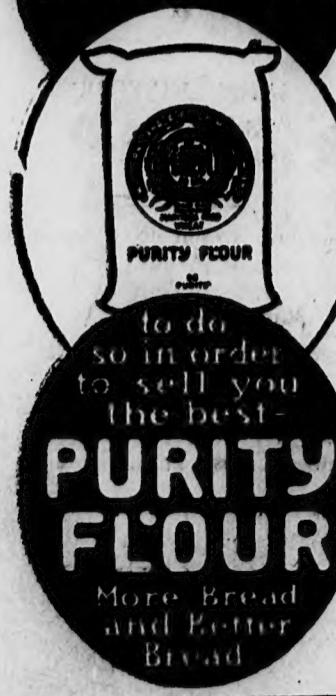

Dizzing

In this great and glorious country of ours, exclaimed the political orator, there is no north, no south, no east, no west.

No wonder we don't know where we are at, came a querulous voice from the outskirts of the crowd.

Your dealer pays more for this flour than for any other, but he's satisfied

Conclusive
The blunt-faced man did not look up from his desk when the woman with the subscription book entered his office.

I hope sir, the caller began tentatively, that you are familiar with foreign missions?

Madam, he snarled, his eyes still unraised, all missions are foreign to me.

Of course, you wouldn't get so angry talking politics if the other fellow had any sense or reason.

By inducing a man to run for office a woman can discover his faults without marrying him.

Help comes to those who are willing to pay for it.

Minard's Liniment Co., Limited.

Gentlemen,—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of LaGrippe, and I have frequently proved it to be very effective in cases of inflammation.

Yours,
W. A. HUTCHINSON

Yes, I really must go to-morrow. You can just as well stay till Monday.

But the folks are expecting me.

Telegraph them that you're going to stay.

I'm sorry, but if I stay I'm liable to lose a thousand dollars on the deal I told you of.

Oh, pshaw, the deal can wait a few days.

My manager has written me that my business needs my attention.

Yes, but he is only afraid to assume a little responsibility. The business will be all right.

There is an important meeting of the directors that I really must attend.

Oh, they'll get along all right without you.

You know how much I'd like to stay but the fact is my railroad ticket runs out to-morrow.

Well, in that case I suppose you will have to go. Be sure and come up to see us again in a month or two.

Thousands of mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

When the new minister, a handsome and unmarried man, made his first pastoral call at the Frostsicks, he took little Anna up in his arms and tried to kiss her. But the child refused to be kissed, she struggled loose and ran off into the next room where her mother was getting a few finishing touches to her adornment before going back into the drawing room to greet the clergyman.

Mamma, the little girl whispered, the man in the drawing room wanted me to kiss him.

Well, replied mamma, why didn't you let him? I would if I were you.

Thereupon Anna ran back into the drawing room, and the minister asked:

Well, little lady, won't you kiss me now?

No, I won't, replied Anna promptly, but mamma says she will.

Minard's Liniment Cures Garget in Cows

Good morning, sir, said the polite book agent cheerfully.

Ugh, grunted the prospect, not so cheerfully.

If it is not trespassing on your valuable time I should like to show you some books which—

I don't want no books.

Pardon me. If you glance at them I think—

I don't want none, I tell you. Git out or I'll throw you out. I don't need yer darned books.

Yea you do. You need two of them—this one on grammar and this one on etiquette. You may not want them, but—

Then he went away from there to save argument.

Dysentery corrodes the intestines and speedily eats away the lining, bringing about dangerous conditions that may cause death. Dr. J. D. Kellogg's Dysentery Cordial clears the intestinal canals of the germs that cause the inflammation, and by protecting the lining from further ravages restores them to healthy condition. Those subject to dysentery should not be without this simple yet powerful remedy.

Bilson, who is a stout man, was running to catch a train the other day, when his friend Jones called out: Halloa, Bilson. In a hurry? Going somewhere?

Keeping his breath for other purposes Bilson made no reply, but he determined to take a terrible revenge. About 1 o'clock next morning he called Jones up on the telephone. After a deal of ringing, a sleepy voice at the other end of the wire told him Jones was there.

That you Jones?

What do you want? asked Jones.

I've been in bed these two hours. I'm Bilson, went on the other. Remember seeing me running this morning, oh? Yes? Well, I was going somewhere, and I was in a hurry. Good night.

Then Bilson hung up the receiver and got back into bed a happy man.

THIEVES LOOT MANY CABINS

Trailed by Passengers They are Captured and Put in Irons by Captain

Thieves have recently been active recently on board steamers voyaging down the Brazilian coast, and the experiences of the British Royal Mail Company's ship Amazon on her last homeward voyage probably supply the explanation.

A few hours after the Amazon left Santos a man wearing a startling gray suit was seen to enter several of the first class cabins as if he were looking for his own.

When the passengers went down to tea one of them said: A man came into my cabin while I was resting. As I thought he looked rather a suspicious character I followed him to another cabin belonging to a friend of mine, and found him putting his hand into the wardrobe. I asked him what he was doing, whereupon he fled.

A man came into my cabin, too, said another passenger. I wonder if it was the same man?

The news caused general excitement on board and inquiries showed that a quantity of money and jewelry had been stolen.

The captain ordered a special watch to be kept at night.

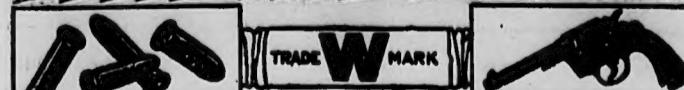

It was then discovered that the two men were prisoners recently discharged from San Paulo jail, and put on board to ship at Santos without any warning to the captain. Two other ex-prisoners had also been put on board at Santos.

The authorities at Rio Janeiro refused to accept the men, and they had to be taken to Lisbon. They were kept in irons, and were continually watched during the voyage. Every one in the ship was relieved when the last man walked off the gangway at Lisbon.

WINCHESTER

Revolver and Pistol Cartridges

Some people take a lot of care in selecting a revolver or pistol, and then buy any cartridges whatever. No wonder they don't always get good results. There is just as much difference in cartridges as in firearms. Always get Winchester make of cartridges and you will have cartridges that are reliable and uniform in shooting and give maximum velocity. They cost no more than inferior makes.

How Much of Your Road Money is Spent in Filling Ruts?

IF the millions of dollars that have been spent repairing worn-out, washed-out streets and roads had been used to build more miles of good highways, fewer farmers would now be wasting valuable time and money taking "round-about" routes to town.

FIRST cost of an ordinary dirt or macadam road is usually only a "starter." The cost of upkeep soon equals that first cost and there is always an ever-increasing annual expense for repairs. The worse feature of it is that such a road is never a really first-class highway.

IN estimating the cost of a road you should include the expense of keeping it in good condition for at least twenty years. If you don't, you're figuring on the first payment for that road, only. And the remaining payments are as certain as taxes. The upkeep cost of concrete roads is practically nothing.

Concrete roads are the best roads from the first—and the best and cheapest roads at the end of ten, fifteen and twenty years.

CONCRETE is the ideal paving material for streets in small towns as well as for main highways in the country.

Edward N. Hines, Wayne County, Michigan, Road Commissioner, and one of America's foremost authorities on good roads, says: Any community that wants a good road, a road that is cheaper for even a short time under heavy traffic than any other good road, a road that is inexpensively maintained, a road that is sanitary and dustless, a road that is not slippery, a road that affords good traction for any type of vehicle 365 days in the year, a road that in the long run, say 10, 15, 20 years and longer, is the cheapest of all good roads, should investigate the merits of concrete.

WRITE for the facts about Concrete highways. When convinced, use your influence to have the roads for which you pay built to last.

We have highway experts who will visit any community intending to build more roads and explain just why and how concrete roads are best and cheapest.

Canada Cement Company Limited

SUBSCRIPTIONS: One Dollar per year in advance. All arrearages of six months or more will be at the rate of \$1.50 per year. Advertising Rates quoted on application.

H. E. OSMOND, EDITOR

The nominations for Councilors on Monday brought out some good men. Three of this year's Council are out for re-election, Messrs. Shantz, Wrigglesworth and Oliver, two have served the town in the same capacity before, Messrs. Good and Osmond, while three are new blood. Messrs. Sinclair, Moyle and Durrer. Mr. Sinclair was in the running last year and made an excellent showing. "You pays your money (taxes) and takes your choice" on Monday next at the Fire Hall.

We wish to call your attention to the fact that most infectious diseases such as whooping cough, diphtheria and scarlet fever are contracted when the child has a cold. Chamberlain's Cough Remedy will quickly cure a cold and greatly lessen the danger of contracting these diseases. This remedy is famous for its cures of colds. It contains no opium or other narcotic and may be given to a child with implicit confidence. Sold by all dealers.

The ratepayers evidently are satisfied with the School Board as it was last year as there were no opposition nominations made for these positions on Monday, the three retiring Trustees being again elected by acclamation. This ensures a continuance of the policy of making the Didsbury High School and the public school the best in the Province, whereas if new men had been elected it would have put the schools back somewhat, because the high school especially is not as yet on a solid foundation.

You will find that druggists everywhere speak well of Chamberlain's Cough Remedy. They know from long experience in the sale of it that in cases of coughs and colds it can always be depended upon, and that it is pleasant and safe to take. For sale by all dealers.

Notice to Creditors

In the estate of Alexander McDonald Ross, late of Didsbury, in the Province of Alberta, Farmer, Decedent.

NOTICE IS HEREBY GIVEN, that all persons having claims upon the estate of the late Alexander McDonald Ross, who died on or about the 16th day of September, 1912, are required to send to H. S. Patterson, Barrister, Didsbury, Alberta, Solicitor for the Executrix, Annie Manson Ross, on or before the 1st day of January, 1913, a full statement of their claims and of any security held by them, if any, verified by statutory declaration, and that after that date the said Executrix will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed with the said H. S. Patterson, a Solicitor for the said Executrix, of the date.

H. S. PATTERSON,
Solicitor for the Executrix.

Didsbury Agricultural Society Annual Meeting

The annual meeting of the Didsbury Agricultural Society will be held at the Fire Hall on Friday evening, December 6th, at 8 p. m. All the members of the Society and others interested are requested to be present as business of importance will be taken up, such as election of officers, a report of the standing of the Society and other matters of great interest to the district and town will come up for discussion.

It is the duty of every person interested in the annual Fall Fair as well as the other work of the Society to be present at this meeting, so be sure to come whether you are a business man or a farmer and take a part in the business. Don't forget the night, Friday.

An Eloquent Speaker

Those who attended the Presbyterian church on Thursday night last to hear Dr. Murdock Mackenzie, a Presbyterian missionary from Honan, China, enjoyed one of the best addresses ever given in Didsbury on missionary work. Unfortunately there were not as many out to hear him as might have been.

Dr. Mackenzie is a forcible speaker with a commanding presence which helps to bring home to his audience the real trials and troubles of missionary life in foreign lands, and his twenty-three years of experience in his chosen life work in China and India has given him knowledge and power which very few men possess.

The speaker dwelt on the question of more missionaries for the Presbyterian missionary field of Honan, stating that in a province about 150 by 180 miles there was a population of eight million people, as many as there are in the whole of Canada, and only a very few to do the work. He has charge of six hundred small stations. What the work in China called for and what he was in hope of getting was fifty more missionaries—one for each 100,000 population in Honan, which he did not think should be a hardship for the church in Canada to supply for their own missionary field. He drew a very vivid picture of the trials of the missionaries in having to work against the superstition, ignorance and indifference in this field, but there were compensations.

A Des Moines man had an attack of muscular rheumatism in his shoulder. A friend advised him to go to Hot Springs. That meant an expense of \$150.00 or more. He sought a quicker and cheaper way to cure it and found it in Chamberlain's Liniment. Three days after the first application of this liniment he was well. For sale by all dealers.

WHY HESITATE

An Offer that Involves No Risk For Those Who Accept It

We are so positive our remedy will relieve constipation, that we offer to furnish it free of all cost if it fails.

Constipation is caused by weakness of the nerves and muscles of the large intestine or descending colon. To expect relief you must therefore tone up and strengthen those organs and restore them to healthier activity.

We want you to try Rexall. Orderlies on our guarantee. They are eaten like candy, and are particularly ideal for children. They act directly on the nerves and muscles of the bowels. They have a neutral action on the other organs or glands. They do not purge or cause any inconvenience whatever. They act to overcome chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Two sizes, 10c and 25c. Sold only at our store—The Rexall Store, H. W. Chambers.

Without an invitation?
That will come. I have something to deliver into Lady Anne's hands—something she lost in my mother's house in Brook Street seven years ago.

He paused and glanced across at Lady Anne.

At his words she looked up suddenly and caught her breath.

It is a letter, Reuben said, putting his hand into his breast pocket and taking out a yellow and crumpled sheet of paper, written by Lady Anne, but which through some accident was never delivered. "Since I may not speak to her, I will read the letter aloud.

He cleared his throat, smoothed the paper and was about to begin.

"Stop!" cried Lady Anne.

CHAPTER XXXVIII

The Monk's Storehouse

Give me my letter!

Lady Anne's sweet voice was harsh with an excitement she could not express.

She touched Harry's arm, and passed him on the bridge. The young American felt furious as he noted the triumph in Reuben Symonds' eyes. In some unknown way he had contrived to get Lady Anne into his power and he clearly meant to make the most of it.

She stretched out her hand for the letter, but Reuben put it back into his pocket with a provoking smile.

"Not yet!" he said. "We must talk it over together first. And we can do that best during dinner.

You may be my cousin, Harry struck in, as he saw the white, despairing look which clouded Lady Anne's face, but you are certainly an unmannerly cad! This lady is ill; she does not want to be troubled with your society; yet you force it upon her.

I don't care a hang for your opinion, Reuben said. Ask Lady Anne if she wishes me to stay to dinner or not.

I cannot prevent you from staying if you desire it, Lady Anne murmured after a short pause.

But do you ask me? persisted Reuben.

I ask you, Lady Anne said with an obvious effort, and Mr. Clavel, too, she added quickly.

Harry knew that she had invited him to protect her from Reuben's importunities, and he accepted at once. I will go over to the farm, if you will allow me, to change into dress clothes, he said.

Please don't. We are informal here. I have to go into the house to give some orders. Will you remain with Mr. Symonds? Dinner is at seven.

She took leave of them both with a little bend of the head, and then, se-

ECZEMA ITCHED
AND BURNED

Until She was Nearly Crazy, Began with Watery-Blisters. On Ears, Eyes, Hands and Ankles. Could Not Sleep for Scratching. Cuticura Soap and Ointment Cured.

Brunswick St., Fredericton, N. B.—"I had a very bad case of eczema. The trouble began with watery blisters and itched and burned until I was nearly crazy. It was on my ears, eyes, hands and ankles. I could not keep the bed clothes over me at night for the smarting and itching. My ears would swell. I would scratch until the blood would run and then form a scab. I felt as if I could take a knife and cut the flesh on my hands. It would disfigure my face and make it smart as I burn and swell. I could not sleep as I was for scratching.

"I tried everything I heard of without getting any benefit. I used lots of home remedies, such as lead and sulphur, and also was treated for it. Then I tried Cuticura Soap and Ointment and they gave me great ease. I used them about four months and I am happy to say I am never troubled now. The Cuticura Soap and Ointment cured me completely." (Signed) Mrs. A. S. Thompson, B.C., 1912.

The regular use of Cuticura Soap for toilet and bath not only tends to preserve, purify and beautify the skin, scalp, hair and hands, but assists in preventing inflammation, irritation and clogging of the pores, the common cause of pimples, blackheads, redness and roughness, yellow, oily, mousy and other unwholesome conditions of the skin. Cuticura Soap and Cuticura Ointment are sold throughout the world. Liberal sample of each mailed free with 22-p. Skin Book. Address post card Foster Drug & Chem. Corp., Dept. 44D, Boston, U. S. A.

Revenge

It's all right, my dear; go ahead, and call me down.

I will, and you deserve it, too.

That's right. Rub it into me now.

Have the last word if you want to.

Have the last hundred words, if you like, but I'll get even with you.

Oh, you will, eh?

Yes, you bet I will. I'll square this little argument.

And what may I ask are you going to do?

Do? I'm going to vote against giving you the ballot; that's what I'm going to do.

And with a triumphant air he walked out of the house.

Constipation

is an enemy within the camp. It will undermine the strongest constitution and ruin the most vigorous health. It leads to indigestion, biliousness, impure blood, bad complexion, sick headaches, and is one of the most frequent causes of appendicitis. To neglect it is slow suicide. Dr. Morse's Indian Root Pills positively cure Constipation. They are entirely vegetable in composition and do not sicken, weaken or gripe. Preserve your health by taking

Advantages and Saving by Using
The Loading Platform

In this writing we desire to put before our Western Farmers the saving and advantage of loading grain direct on cars. Shipping grain through an elevator, it matters not whether a Government elevator or one run by an elevator company or individual owner, does not add the least fraction of a cent to the value of the grain, nor does it give the farmer any better chance of marketing it to advantage than when loaded direct on cars. But loading direct on cars cuts out in the first place the elevator charge, which is usually 1 1/4c. per bushel, say \$17.50 on a thousand bushel car. The elevator dockage is also saved; this may be worth more or less, depending partly on how dirty the grain is, but mostly on the farmer's ability in holding his own with the elevator man taking it in. On the average the dockage may be considered worth 3c per bushel to the farmer, or say \$30 per car of 1,000 bushels. When grain is loaded direct into car over the Loading Platform, the farmer knows for sure that it is his very own grain that will be graded by the inspector, and that he will without doubt receive the full and exact outturn of his car at whichever terminal elevator it is unloaded; for all grain is unloaded from the cars under government superintendence and weighed by properly qualified government weighmen under the rules and supervision of the Dominion Government Board of Grain Commissioners.

Of course, it makes no difference in our loading of the farmers' grain whether it has been shipped through an elevator or over the Loading Platform, but it can easily be seen from what we have stated above where the farmer's advantage lies, when it saves him around \$50 or more on every car he ships.

We continue to act as the farmers' agent in looking after and disposing of carlot shipments of wheat, oats, barley and flax strictly on a commission of 1 cent per bushel. We are not connected with, nor interested in any elevator companies or elevators, either local or terminal; neither are we track buyers, in fact, we never buy farmers' grain on our own account, but only to handle and dispose of the grain entrusted to us as the agents of those who employ us. Many years experience, with a wide connection and ample facilities for engaging in this special branch of the grain trade, have given us a reputation of the highest character in it. We make liberal advances on car bills of lading. Write us for shipping instructions and market information. We give as references to our reliability, efficiency and financial standing any city or country Bank Manager in Western Canada.

Opportunity

There are Four Things which never
come back

There is an old saying that "Opportunity has hair in front and is bald behind. If you seize her by the forelock you may detain her, but if you suffer her to escape not even Jupiter himself can catch her again."

Many people do with "Opportunity" as children do at the sea-shore—they fill their hands with sand and let the grains fall through, one by one, till they are gone.

This is the day of the farmers' opportunity, with a new country where new institutions and new lines of business are coming up. Why not change the order of things? The old methods have been a failure so far as the farmer was concerned; he produced the wealth and handed it over to other corporations for distribution, getting back the meagre share they grudgingly gave him.

Think this over and decide to help build up a new order of things.

IN INTERESTS OF PEACE

TENSION IN BALKAN CRISIS IS
CONSIDERABLY RELIEVED.

Great Britain and Germany Said to be Working Together in an Effort to Secure a Peaceful Settlement—Diplomatic World Welcomes Authentic Reports Regarding Peaceful Negotiations.

London.—The tension in the Balkan crisis is considerably relieved by the news that the peace plenipotentiaries are continuing their negotiations and that Great Britain and Germany are working actively to secure a peaceful settlement between Austria and Servia. According to one Constantinople representative the difficulties in the way of arranging a formal armistice are so great that the negotiations are taking the form of seeking a basis for peace.

The danger of the reopening of the hostilities, however, is still serious. Apparently only an informal armistice of 48 hours has been agreed on and it is reported that the Bulgarian forces are already moving closer to the Tchatalia line and are entrenching themselves in readiness to renew the attack.

The Turks have an army of more than one hundred thousand men and soon will have one hundred and thirty thousand, for the most part fresh picked troops, behind the lines, and it is certain, according to all the correspondents, that they will give a good account of themselves if the fighting is resumed.

Under these circumstances, with Adrianople and Scutari still holding out, Turkey little likely to show a very yielding attitude in the peace negotiations.

The report that the Servians have reached Durazzo appears to be premature. A wireless dispatch of today's date brings the interesting report that Albanian independence has been proclaimed there, that the Turkish government is now preparing to depart and that the town is accepting without opposition the new regime.

What action the Servian army and government will assume towards these developments should form some idea of whether, as reported, Servia is willing to accept the suggestion of an autonomous Albania. The greatest weight is attached in the diplomatic world to the seemingly well authenticated reports that Great Britain and Germany are now acting in cordial co-operation on the basis of postponing all side issues until after the war settlement. A reassuring statement also comes from St. Petersburg that Russia and Austria do not desire to fight over a port in the Adriatic. Thus what appeared to be an imminent danger of Europe being divided into two hostile camps seems to be dissipated for the time being at least.

WATER ROUTE TO NORTH

Navigation to Hudson's Bay From Dakota by Red River

Grand Forks, N.D.—Navigation by the Red River, Lake Winnipeg and the Nelson River to Hudson's Bay is contemplated in steps that are being taken toward making the Red River of the north a permanent navigable highway. The new route when completed would be 1,200 miles shorter to Liverpool than the present route, and will give an outlet for the grain to the world's market by water with but two handlings en route.

The last session of Congress ordered a survey of the river, and December 5 Diet Comptee, chief of the government engineers for the northwest, will hold a hearing in this city.

As a result of the light rainfall in the past two years, water in the Red River has been too low to permit navigation and several fleet of barges have lain idle. Congressman Helgeson, successfully got a bill through Congress providing for preliminary steps toward river improvements. North of the International Boundary the Canadian government has provided navigation for over 60 miles by the construction of a big lock and dam. The river provides the best method of transportation for hundreds of thousands of bushels of grain grown by farmers to the north and south of Grand Forks, and determined efforts will be made for improvements that will establish a permanent water level during navigable seasons.

C.P.R. Encouraging Farmers

Calgary.—The policy of the department of natural resources of the C.P.R. to assist the live stock industry of the western provinces was announced at the Alberta Fat Stock Show by Dr. J. G. Rutherford, superintendent of animal husbandry for the C.P.R. The policy contemplates the establishment of herds of pure bred dairy cattle and the placing of selected bulls with farmers in various parts of the province; the furnishing of steers at cost to farmers' sons who will undertake to feed them, the profits on sale to be paid to the boys; study of rates and car service as they affect stock interests and the encouragement of co-operative buying, handling, breeding and selling of live stock by farmers.

Madman in a Liner

Madrid.—One of the passengers on the Transatlantic liner *Caronia* at Cadiz suddenly went mad and attacked several fellow-passengers and some sailors with a knife. Before he could be overpowered thirteen persons were wounded and three are in a critical condition.

CHANGES IN R.N.W.M.P.

Scheme on Foot to Increase the Force, and Also the Pay

Ottawa.—Premier Borden has given notice of a Bill amending the Royal Northwest Mounted Police Act. It will provide for some important changes in regard to the force. It is proposed in the first place, to increase the strength of the force. There have been latterly 11 divisional posts and 170 detachments, with not sufficient reserve of strength at any of the divisional posts to meet emergencies. The detachments consist in most cases of a single constable.

The demands for more detachments have been constant and insistent, the population having increased five times and the settled area having extended tenfold, while the force has stood at the strength of ten years ago, with 50 officers and less than 600 non-commissioned officers and constables.

The Bill provides for a substantial increase in the strength of the force, and will also provide for a higher scale of pay for the men. The service has experienced much difficulty in keeping the men and in getting new men under the existing scale while the many opportunities of more profitable employment exist in the Western Provinces.

A new departure will be a clause providing for the use of plain clothes for mounted police. The need for this has been very evident in tracing down persons wanted for murder and other offences in the Western settlements.

STRAW PLANT FOR HAT

Company Now Negotiating With City—Plant Will Cost \$150,000

Medicine Hat.—Messrs. F. A. Burton and C. F. Schaub, of Calgary, were in Medicine Hat negotiating for the location here of a plant for the manufacture of heavy wrapping paper, straw board, sheathing paper and kindred products, the raw material to be the vast quantity of straw which under present conditions is discarded by the farmers as worthless. These gentlemen held a meeting with the mayor and city council and decided to locate the proposed factory in Medicine Hat. They asked for free gas, free site and certain minor concessions in the matter of taxation to be determined later. The proposed plant will require ten acres of land. Plans have been completed for the buildings which will include a manufacturing building 82 feet by 84 feet, two stories in height, a vat building for burning, washing and cooking of the straw, 42 by 18 feet, and a warehouse for the storage of lime. The plant will cost nearly \$150,000.

QUEEN VICTORIA MONUMENT

English-Speaking World to Celebrate 100 Years of Peace on Feb. 17, 1915

New York.—A meeting of the sub-committee of the American commission to arrange for the celebration in 1914-15 of the one hundredth anniversary of peace among English-speaking people, was held in the Lawyer's club.

One matter, acted upon favorably, was a suggestion of Senator Root's that on the 17th of February, 1915, five minutes shall be set aside and that those five minutes shall be designated by the Parliament of Great Britain and the Congress of the United States, as a period during which all activities of the English-speaking world shall come to a full stop, and "that for five minutes the English-speaking world shall review the one hundred years of peace and its attendant blessings with prayer and contemplation."

Another matter, acted upon favorably, was the question of a woman's auxiliary commission, whose specific work will be to advance the proposal to erect a monument to Queen Victoria in the city of Washington. A proposal to erect at some conspicuous point in the United States a bust of Chatham, as a memorial to the friendship of the British people to Americans at the outset of their career, was agreed to.

It was announced that the commission would give a dinner in honor of James Bryce, the retiring British ambassador, at the Hotel Astor, on the 13th of next month.

ALBERTA TO WINNIPEG

Winnipeg Favors Scheme to Pipe Natural Gas From Medicine Hat

Winnipeg.—The Board of Control has decided to take up in earnest the proposal to supply Winnipeg with natural gas by piping it to the city from Medicine Hat. A special meeting of the board was called for the purpose of going into the possibility of the plan with Georgeson & Shimmin, who are promoting the enterprise. The fact that the promoters have now made an offer to pipe the gas to Winnipeg and supply the city with the gas at 40c. per thousand feet, including distribution in the city, has brought the scheme within the bounds of practicability. The two men, who have for years been attempting to secure the privilege of piping the gas, will meet the board in special session and a report will be made to council by the board concerning its finding in the matter.

Church Acquires Boxing Clubhouse

London.—The clergy of All Saint's Blackwell, Poplar, are converting a local boxing club into a church institute for the youth of the parish.

PROSPERITY OF CANADA

CANADIANS HARDLY KNOW THEIR OWN POSSIBILITIES

Dominion is Enjoying a Remarkable Era of Prosperity and Offers Wonderful Opportunities for the Development of Wealth—Trade Will Reach Billion Dollar Mark This Year.

Ottawa.—In the senate the address was resumed by Hon. Mr. Lougheed, government leader, who said that Canada was on the eve of an era of prosperity which he believed Canadians generally were unable to appreciate. It was more appreciated by people from the outside and the result was that the possibilities of wealth in Canada was being largely exploited by people from the United States. He believed that in Canada there were greater possibilities for the development of wealth than in any other country in the world. A few years ago the man who predicted a billion dollar trade would have been laughed at; yet Canada's trade will this year reach that total. The United States trade did not reach the billion dollar mark until 1875, when it had a population between 45,000,000 and 50,000,000.

An examination of the figures revealed the fact that in no country had growth been so rapid as in Canada. Hon. Mr. Lougheed said that so great had been the success of the aid given to provinces for the promotion of agriculture, that the government would probably increase the grants this year. It was to be regretted that in Canada, where agricultural possibilities were greater than in any other country in the world, the provinces gave so little attention to agricultural education. The great support went to institutions of higher education which turned out consumers instead of producers, while with arable land enough to raise food for the whole of Europe, Canada had to import foodstuffs from as far as New Zealand. An effort should be made to divert the youth of Canada from the effort to acquire classics to the neglect of the soil.

THE MARKET REPORT

Weekly Grain Letter Supplied by Thompson, Sons & Co., Grain Merchants, Winnipeg.

Winnipeg, Nov. 26.—The situation in the wheat market has not improved during the past week, and had it not been for the influence on trading sentiment, caused by the backing and filling in the political situation in Europe, it is easy to see that wheat prices would have shown another substantial decline. As it is the downward action in the markets today, has brought prices in the United States markets and Winnipeg, to a new low point for the season, although closing prices are only 3c. to 4c. under what they closed at a week ago. On the 20th inst. and again yesterday, the Liverpool market got considerably excited over fresh developments in the Balkan situation, which seemed to portend serious results, and very sharp advances in prices took place, principally through speculative short sellers endeavoring to cover their sales in quick order. This action affected markets on this side in the same way, but in less than twenty-four hours the war clouds which seemed so ominous, melted away and the light of apparent peace again prevailed. War or no war the actual grain situation of the world is heavy owing to the superabundance for the time being of all kinds of grain. The world has raised, and is raising in the crop year of 1912 and 1913, the largest crops on record, of all kinds of grain, besides an abundance of some other staple kinds of vegetable food stuffs for man and beast. Of course every country in the world, and every grain growing district, has not had record crops and there has also been in different parts more or less of unfavorable weather coming however mostly at and after the harvest period, after the growth and fruition of the crops had been made, but this, although causing some depreciation in quality, and giving farmers a great deal of extra work and expense in saving the crops, has not lessened the total available quantity to any extent. There is however, no country where in this crop year, there is anything approaching what would be called a failure, or even a partial failure, of any of the staple crops, that is taking each country as a whole, although there doubtless are small districts in different countries where from one cause or another only small crops have been raised. But in several large agricultural countries there is great abundance, and in the aggregate this abundance has turned to be a great weight on the market, and the weight of it, even in the face of onerous war influence, has put down prices until it is not unreasonable to think they are getting on debatable ground, from which they could easily spring upwards whenever any bullish development of more than temporary appearance takes place. Perhaps it is scarcely right to say that the weight of abundance of wheat has caused the great decline in the markets, rather it has been short selling in the speculative markets by professional speculators, who seeing the large supplies in prospect, kept offering and selling for future delivery, large quantities of wheat at steadily lowering prices thus making the market price for both the miller who buys and the farmer who sells the actual wheat. Of course it must be remem-

bered that the speculative operators who now bear down prices lower than there is any need for, are the same people who at some other time carry prices higher than there is any need for. At the present time to quote from a well written article in the Commercial West: "Wheat may go lower but it is already too low. Farmers cannot become the dictators. They have the remedy at their command. If they will persistently hold their wheat until after January 1st, they could then doubtless market the remainder of their crop at an average of 10c. above the present price. For them to sell more wheat now is to place it on the bargain counter. The price made in the pit (that is by the speculative short seller) while this bearish sentiment lasts, will prevail, unless the actual wheat is largely taken off the market." In the meantime of course, current statistics continue of a bearish kind. Last week the world's shipments of wheat from exporting to importing countries were 14,000,000 bushels against 10,000,000 bushels same week last year. The quantity on ocean passage is now 39,576,000 bushels against 32,496,000 bushels last year. The United States visible supply increased last week 3,324,000 bushels against an increase last year of 968,000 bushels. The total United States visible is now 55,370,000 bushels against 48,889,000 bushels a year ago. The European visible supply increased 688,000 bushels last week against an increase of 600,000 bushels a year ago and the aggregate is now 88,800,000 bushels against 91,706,000 bushels a year ago. The figures for these visible supplies may not appear so bearish when compared with last year's figures but the indications are that the comparisons will become more bearish now with every passing week, and besides, it seems reasonable under present circumstances that invisible supplies of wheat in the hands of merchants and millers in both Europe and America and of flour in dealers' and bakers' hands, have been largely increased in recent weeks and there can be little doubt that the supplies of wheat still back in farmers' hands on both continents are much larger than they were a year ago. Another chief bearish factor in the wheat situation is the Argentine crop. It has come along from seed-time with practically no unfavorable reports about it, and it is understood to be one of the largest, if perhaps not the record, crop of wheat raised in the Argentine. Cutting in the earlier northern parts will be started any day now, and will be general in two or three weeks. Unfavorable weather may be encountered during harvest and threshing time, as was the case to a large extent last year but the crop is too far advanced under favorable circumstances, to look for any large falling down now. The Australian crop is also doing well, and owing to timely rains in India the prospect of the new crop in that country is improved during the past week. The United States winter wheat is in high condition perhaps too high to favorably withstand the rigor of the latter part of winter. In western Kansas, Oklahoma, and Texas, the weather is too dry and rain would be beneficial.

Our Winnipeg market has seen a good demand for cash wheat lately and there has been considerable activity in futures trading. Prices paid by exporters and shippers have been well upheld but of course have had to conform to the downward trend of the situation, and to the approach of the close of lake navigation, which will come in about two weeks. Although the C.P.R. proposed to regulate the movement from the West by temporarily refusing to supply cars to some country points, the receipts at Winnipeg during the week show practically not let-up. The weather over the country continues remarkably fine and steady for the time of year. Today's cash prices for cars enroute past Winnipeg are down to the basis of December delivery but wheat now in store at terminal elevators available for immediate delivery on complete documents, is basis November delivery. Cars enroute past here 1 Northern 78 1/2c; 2 Nor., 75 1/2c; 3 Nor., 72 1/2c; No. 4 Wheat, 68c; Alberta Red Winter No. 1, 79 1/2c; A.R. No. 2, 76 1/2c; A.R. No. 3, 73 1/2c. Tough wheat 4c. to 6c. under straight grade. Futures closed November 81 1/2c; December, 78 1/2c; May, 63 1/2c. Oats—

The oat trade has turned very quiet and cash prices are not quoted, but No. 2 Canadian Western has buyers at 3c spot Fort William, 3 C.W., 32c; Ex. 1 Feed, 32 1/2c; 1 Feed, 32c; 2 Feed 30c. Futures closed November 33 1/2c; December, 31c; May, 33 1/2c. Barley—

The barley market has declined heavily and prices are No. 3, 44c; No. 4, 40c.

The flax market is also dull and lower, and cash prices are not quoted. Futures closed November 111c; December, 111c; May, 115 1/2c.

All prices quoted above are for delivery in store Fort William, Port Arthur and Duluth.

Regina to Quebec by Electric Railway

Toronto.—To link Quebec province with Winnipeg and ultimately Regina and open up a huge tract of rich country now undeveloped is the idea of the Porcupine and Bear Electric Railway, with F. G. Earl of New York as president. Work on the company's right of way from Dane to Tensaskan will be pressed this winter and operations further west in the spring.

It is proposed to run cars on this road with electric storage batteries to be recharged from power houses located at various waterfalls, which are plentiful along the route.

THE SUNDAY SCHOOL

LESSON X.—FOURTH QUARTER,
FOR DEC. 8, 1912

Text of the Lesson, Matt. xviii, 1-14. Memory verses, 2, 3—Golden Text, Matt. xviii, 10.—Commentary Prepared by Rev. D. M. Stearns.

The question of the disciples with which this lesson begins, "Who is the greatest in the kingdom of heaven?" carries us far back in the history of man on the earth, even to the suggestion of the old serpent to Eve, "Ye shall be as gods" (Gen. iii, 5). His own ambition is seen in Isa. xiv, 12, 14: "I will exalt my throne above the stars of God. I will be like the Most High." The significance of the title "Most High God" is seen in the first use of it in Gen. xiv, 18-22, where it evidently refers to God as the possessor of heaven and earth. The great adversary's ambition, therefore, is to possess the earth and the people upon it.

The late Dr. Weston said that the Bible is the record of the conflict between God and the devil for man and his inheritance, the earth. When people join house to house and field to field, that they may be placed alone in the midst of the earth (Isa. v, 8), on which principal all trust and combines seem to be carried on, it is not difficult to recognize the unseen ambitions, wicked one back of it all, who offered to our Lord all the kingdoms of this world and the glory of it. If He would worship him (Luke iv, 517).

The man will yet come, if he is not already in sight, who will accept this offer of the devil, and all the world will worship him whose names are not in the Book of Life (Dan. xi, 36-38, 43; Rev. xiii, 8). We need to understand this in order to be delivered from the ambition to be great even in the kingdom. He must be blind indeed who would desire greatness of power in this present evil age unless he could use it wholly for God. The lifelong motto of every believer should be: "The Lord alone shall be exalted" (Isa. ii, 11, 17).

Not only on this occasion did the idea of personal greatness lay hold of the disciples, but just after He had the second time foretold His death they by the way disputed among themselves who should be the greatest (Mark ix, 31-34). On another occasion both James and John and their mother asked for seats on His right hand and left hand in His kingdom and glory (Matt. xx, 20, 21; Mark x, 35-37). Then again at the last passover on the night of His betrayal, after He had indicated Judas as His betrayer, there was a strife among them which of them would be accounted the greatest (Luke xxii, 21-24). He always taught them that genuine humility was true greatness, and as to places in His kingdom, the Father had arranged all that, and we must leave it with Him.

On the occasion of our lesson He called a little child and set him in the midst and by an object lesson taught them humility and true greatness and also that to enter the kingdom one must become as a little child (2-4). A little child does not suggest innocence as its principal feature, for it is marvelous how early a very little child shows willfulness and temper, yet once heard a Roman Catholic bishop use these words about becoming as little children as a proof of the need of a purgatory, where we could somehow work off our sins until, as when we were innocent children, we would be fit for the kingdom.

The Scriptures, the reading of which the Roman Catholics do not encourage teach us plainly that only the blood of Jesus can cleanse our sins and that His absolutely perfect righteousness, which He gives freely to all who receive Him, is our only fitness for the presence of God (Rom. iii, 24; v, 1, 9; 1 Cor. i, 30). A very little child is helpless, teachable, trustful, comes when called, as this child did. When we come to Him in our emptiness all His fullness becomes ours, and then we become indeed His little ones, who believe in Him (verse 6), and He counts all treatment of such little ones as done to Himself (verses 5-9).

Awful indeed, are some of the words in these verses and in Mark ix, 42-48, concerning the possibility of being cast into everlasting hell fire, but how blessed the assurance that this fearful place was never prepared for man, but for the devil and his angels; that the Lord is not willing that any should perish and that those to whom He gives eternal life can never perish (verses 5, 14, 25-41); 1 Pet. iii, 9; John x, 28). The ministry of angels is beautifully referred to in verse 10, and that they always have access to our Father in heaven, that they minister to us here on the earth is taught by Heb. i, 14, and many other passages. It is blessed to be able to say, because we really believe it and know something of the joy and peace of it. "I am never alone, the Lord Jesus and the angels are always with me."

In verses 11-13 we have what might be called a summary of the three parables of Luke xv, showing the joy in heaven over one sinner repenting. If we are not thus seeking lost ones can we be

AROUND THE TOWN

Edmondson's auction sale, conducted by G. B. Sexsmith last week at Sterlingville, was a great success, over \$8,000 worth of stock and goods being sold in three hours. Cows brought \$70 per head. Horses also brought a good price.

The Didsbury branch of the U. F. A. will hold their annual meeting on Monday, Dec. 9th. All farmers and particularly the members are asked to be present at this meeting as there will be business of importance which will be brought up and a special speaker is expected to be present.

The mild weather we have been experiencing this fall has been delightful, but the young people are longing for ice at the rink so that they can go skating. The Curling Club, Ltd., are doing their best to get the rink into shape, but the weather man is opposed to them and consequently the curlers and skaters will have to wait his good pleasure.

Stole Fine Automobile

Some excitement was caused in town on Monday when it was learned that four men had brought a fine new five passenger, 44 h. p., Cadillac auto into town on Sunday morning from Edmonton and run it into the Alberta Livery barns where they left it and departed for Calgary on Sunday night. The actions of the men seemed to be suspicious to Mr. McIntyre, the owner of the livery, but nothing was known about the matter until Constable Sick was called up on the phone in reference to the matter and a detective from Edmonton arrived here on Monday in quest of the car. While the car appears to be a new one the back springs had been broken, the cooler on the front smashed and the license plate on the back looked as though it had been hammered as it was impossible to tell the number. The car belonged to Messrs. Dobson and Riddell of Edmonton and was stolen from in front of one of the Edmonton hotels.

Nominations for Mountain View Municipality

The nomination for Councillors for the new municipality of Mountain View, which includes Neapolis and the district immediately east of Didsbury, took place on Monday and the following gentlemen were nominated for office: Peter G. Johnston, H. E. Pearson, Wm. Rupp, Fred Haderer, J. W. Francis, J. A. Dodd, D. McLean, Alex Curry, A. P. Backman.

Five Councillors have to be elected this year, the three Councillors receiving the highest number of votes holds office for two years and the two next lowest retire at the end of the year.

Card of Thanks

Mr. W. H. Stark, manager of the Didsbury Lumber Co., wishes to thank the Didsbury Fire Brigade and all those who assisted for their aid at extinguishing the fire at his office on Saturday last.

ARTHUR NOVELTY CO., Station B, Montreal

A WONDERFUL DISCOVERY

In this age of research and experiment, all nature is ransacked by the scientific for the comfort and happiness of man. Science has indeed made giant strides in the past century, and among the—by no means least important—discoveries in medicine is that of Therapion, which has been used with great success in French Hospitals and that it is worthy the attention of those who suffer from kidney, bladder, nervous diseases, chronic weakness, ulcerous skin eruptions, piles, &c. There is no doubt in fact it seems evident from the big stir created amongst specialists that **Therapion** is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men. It is of course impossible to tell sufferers all we should like to tell them in this short article, but those who would like to know more about this remedy that has effected so many—will almost say, miraculous cures—should send addressed envelope for **FREE** book to Dr. Le Clerc, M^r Co., Haworth Road, Hampsden, London, England, and decide for themselves whether the New French Remedy **Therapion** No. 1, M^r Co., No. 3 is what they require and have been seeking in vain during a life of misery, suffering, ill health and unhappiness. Therapion is sold by druggists and all leading medicine dealers in Canada.

AN ENERGETIC AGENT IN EACH TOWNSHIP to introduce our line to the public; big money can be made and permanent position secured. Apply to The Queen City Silver Co., Toronto.

Not Yet

Now that the election is over let us quit regarding each other as a fool and be friends again.

It is too soon to talk of that. Don't forget that you have a bet with me which makes it necessary for you to eat your hat.

In the crisp, bright October air, the sweet young thing had been for a drive with her sweetheart and returned freshened and glowing with excitement.

Oh, mother, she cried, Tom and I had the narrowest escape from an awful accident. The horse nearly bolted and I don't know what would have happened.

We were going through a narrow lane when, all of a sudden a pheasant got up from the hedge and flew across the horse's head and before Tom could grasp the reins—

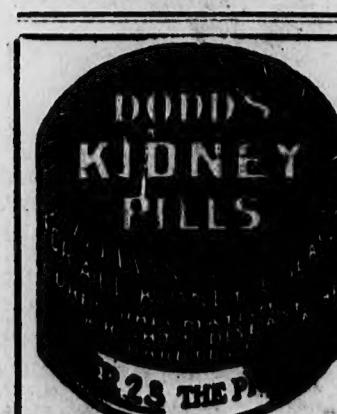

Er, enquired the young brother—wasn't he holding them then?

And it took long time to explain clearly what actually did happen.

Minard's Liniment Cures Distemper

Boasting

(To the Girl who sat on my pipe)
I loved you for your blushing ripe
And tempting lips—ahem—
Until you flounced upon my pipe
And crushed the amber stem.

50c. a box or six boxes for \$2.00,
at all dealers, or The Dods Medicine Company, Limited, Toronto, Canada.

QUEEN BUYS CHRISTMAS GIFTS

Unrecognized in London Stores, She Purchases Articles in the Ordinary Way

Queen Mary has already begun her Christmas shopping.

Her majesty likes to buy things privately in her own quiet way, and prefers to visit a shop in person rather than to have a number of articles sent to Buckingham palace from which she can make a selection.

Few, if any, of the busy crowds of people going their various ways through Cambridge circus on Thursday afternoon knew that the queen was buying Christmas presents quite close at hand.

Hundreds passed and repassed the private motor brougham standing outside the old bookshop at the corner of Shaftesbury avenue, and within the boundaries of the notorious Seven Dials, without giving it the slightest attention.

The bookshop was that of Joseph Zachseldorf. Here her majesty, who was accompanied by a lady in waiting, spent considerably more than an hour, purchasing many bound volumes on a variety of subjects, as well as one or two novels.

Credited with being an exceedingly good shopper, Queen Mary gives a minimum amount of trouble to those detailed to attend to her requirements.

She knew exactly what she wanted when she went into the bookshop, and spared no pains to explain her wishes to the assistant.

Most of the time she was in the shop her majesty was inspecting other books which she had not come to buy, but which interested her.

She purchased several volumes which she at first picked off the bookshelves and bookcases quite casually.

WOULD FALL IN A FAINT

WHEN SHE ATTEMPTED TO WORK, SO EXHAUSTED WAS THE NERVOUS SYSTEM

The Feeble, Wasted Nerves Were Restored and Revitalized by

DR. CHASE'S NERVE FOOD

Nervous prostration is a terrible disease to all who understand its symptoms. At times the sufferer feels comparatively well, but with slight exertion the dreadful helplessness returns and all strength and vitality seems to leave the system.

This letter from Mrs. Martin very well describes the terrible condition in which many a sufferer finds herself. She also tells how she regained health and strength by using Dr. Chase's Nerve Food after all other treatment had failed.

Mrs. Edwin Martin, Ayer's CHM. Que., writes:—"Before I began using Dr. Chase's Nerve Food I was in a terrible condition from nervous exhaustion and prostration. Dizzy spells would come over me and I would fall to the floor. The weakness was so great that I could not so much as sweep the floor without fainting, but the nerve food helped me after the doctors failed. It has done wonders in building my nervous system. I can do my own housework now and washing, and feel that this great medicine has been a God-send to me."

Dr. Chase's Nerve Food, 50c. a box, 6 for \$2.50, at all dealers or Edmanson, Bates & Co., Limited, Toronto.

A fire insurance agent tells this one.

We have some funny experiences in our business. One day a small merchant of the Hill section came to me and insured his stock of ready-made clothing for \$3,600. He was going out with the policy when I reminded him that he had forgotten to pay the premium.

How much is it? enquired the customer.

Oh, just a little matter of \$24.

Well, said he, suppose you just let the premium stand and deduct it when the store burns down.

A small negro boy stood by the side of the road near a river, standing on one foot, holding his head on one side and pounding the top of it with his hand.

What's the matter? inquired the traveller?

Watash in mah ear, grinned the boy. Well, well, I declare, said the travelling man. To think I'd forgotten I've done the selfsame thing many a time when I've been in swimming and got water in my ears.

I ain't been er swimmin, said the boy.

How'd you get water in your ear, then?

Ah been eatin' watermellons, was the reply.

Many a man has had a close shave who never patronized a barber.

When a man begins to abuse his home town it's time for him to move out.

No matter how poor a woman is, she can always boast of having rich relations.

A foolish girl makes a husband out of her lover; a wise one makes a lover out of her husband.

Some people fail to win because others do not lose.

NEW HALL CAINE PLAY

The Woman Thou Gavest Me for England and America

Hall Caine is at present at work on a stage version of his latest book: The Woman Thou Gavest Me; and that he has already entered into an agreement with the well-known American theatrical managers, Messrs. Klaw and Erlanger, for its production in New York in the autumn of next year.

Negotiations are proceeding for an elaborate presentation of the play in London, simultaneously with that in New York, but these negotiations are not yet far enough advanced to justify an allusion to the management concerned in them.

It will be remembered that "The Christian," dramatized by himself, was first produced in America, and "The Eternal City," in which Sir Herbert Tree appeared as Baron Bonelli, had a New York production on the same day that it was presented at His Majesty's Theatre.

For Asthma and Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from asthma and catarrh will find that the Oil when used according to directions will give immediate relief. Many sufferers from these ailments have found relief in the Oil and have sent testimonials.

Good afternoon, Jimmy, said the nice young lady visiting his mother's house in the sweet cause of charity. Why don't you come to our Sunday school? A lot of your little friends have joined and we are going to have a lovely party at Christmas.

Jimmy shook his head. Then suddenly he exclaimed:

Has a boy called Snooks, with red hair, joined yet?

Yes dear, said the nice young lady, and he seems to like it. He's such a good little boy.

Huh, is he? muttered Jimmy. Well if he's there I'll come, too. I've been looking for him for three months and never knew where to find him before.

Minard's Liniment Cures Diphtheria

Prize Fighter (entering school with his son)—You give this boy of mine a thrashing yesterday, didn't you?

Schoolmaster (very nervously)—I—er—perhaps—

Prize Fighter—Well, give us your hand, you're a champion. I can't do nothing with him myself.

Help for Asthma. Neglect gives asthma a great advantage. The trouble once it has secured a foothold, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily curing cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

A lawsuit was recently in full swing and during the progress a witness was cross-examined as to the habits and character of the defendant.

Has Mr. M— a reputation for being abnormally lazy? asked the counsel briskly?

Well, sir, it's this way—

Will you kindly answer the question asked?

Well, sir, I was going to say it's this way. I don't want to do the gentleman in question an injustice. And I don't go so far as to say, sir, that he's lazy, exactly; but if it required any voluntary work on his part to digest his food—why, he'd die from lack of nourishment.

A doctor's sleep

Found He Had to Leave Off Tea and Coffee

Many persons do not realize that a bad stomach will cause insomnia.

Tea and coffee drinking being such an ancient and respectable form of habit, few realize that the drug—cafeine—contained in tea and coffee, is one of the principal causes of dyspepsia and nervous troubles.

Without their usual portion of tea or coffee, the caffeine takers are nervous, irritable and fretful. That's the way with a whiskey drinker. He has got to have his dram "to settle his nerves"—habit.

To leave off tea or coffee is an easy matter if you want to try it, because Postum gives a gentle but natural support to the nerves and does not contain any drug—nothing but food.

Physicians know this to be true, as one from the South writes:

"I have cured myself of a long-standing case of Nervous Dyspepsia by leaving off coffee and using Postum," says the doctor.

"I also enjoy refreshing sleep, to which I've been an utter stranger for 20 years.

"In treating dyspepsia in its various types, I find little trouble when I can induce patients to quit coffee and adopt Postum."

The doctor is right and "there's a reason." Read the little book, "The Road to Wellville," in pkgs.

Postum now comes in concentrated powder form called Instant Postum. It is prepared by stirring a level teaspoonful in a cup of hot water, adding sugar to taste, and enough cream to bring the color to golden brown.

Instant Postum is convenient; there's no waste; and the flavor is always uniform. Sold by grocers—50c-up to 30 cts., 100c-up to 50 cts.

A 5c-up trial tin mailed for grocer's name and 2-cent stamp for postage. Canadian Postum Cereal Co., Ltd., Windsor, Ont.

If You Value Your Eyesight Rayo Lamp

You will equip your reading table with a

Authorities agree that a good kerosene oil lamp is the best for reading. The Rayo is the best oil lamp made—the result of years of scientific study. It gives a steady, white light, clear—mellow. Made of solid brass, nickel plated. Can be lighted without removing chimney or shade. Easy to clean and rewick.

WINNIPEG TORONTO MONTREAL ST. JOHN HALIFAX

CAZAR'S SON WAS SHOT

New Light Thrown Upon the Mysterious Illness of the Little Czaritch

The Czar's eight year old heir, his only son, is recovering from his illness, but the mystery maintained by the Russian court and police daily deepens.

The report of an attempt on his life in the imperial yacht Standard is now given in Paris with circumstantial detail. The explanation of the admiral's suicide, followed by the attempted suicide of a girl with whom he had relations, is said to be that the girl, a revolutionary, used her influence with the admiral to secure the presence of a nihilist in the crew. The other conflicting accounts of the illness or accident of the czar's son ascribe it to a fall from a pony, or a bicycle, or a spar in the yacht, an accident in his bath, a hemorrhage, kidney disease, or peritonitis, inflammation of the membrane lining of the intestines.

The story accepted here as true is that the prince was shot with a Browning pistol, and he owed his life to the fact that when he saw an individual approaching with a pistol pointed at him he attempted to escape. But his assailant was too quick and as the startled boy turned to one side he fired and the bullet inflicted a deep wound in the lower part of the abdomen.

In the confusion the person who had fired slid down a rope over the side of the Standard and escaped either in a boat or by swimming ashore. He has succeeded in getting out of Russia. It was through his confession that the attempt became known outside court circles.

Admiral Chagin was not on board the yacht when the prince was wounded. The role played by the girl student, Helen Sogoloff, who tried to commit suicide for the admiral's suicide and to whom he left a sum of money in his will, is more serious than has been hinted at, and in view of her responsibility in the matter it is perhaps not surprising that she attempted her life.

It is necessary to recall that in 1882, the year following the assassination of the Czar Alexander II, by a bomb, a military revolutionary party was formed in St. Petersburg, with branches at Cronstadt, Nicomieff, and Sebastopol. It had as its chief Colonel Aschenbrenner, with whom were associated Lieutenants-Baron Stromberg and Suchanoff. The famous nihilist, Marie Vera Figner, was also a member. Suchanoff, after being tried for complicity in a nihilist plot, was shot, and Marie Figner and Colonel Aschenbrenner were condemned to death, but their sentences were commuted to twenty years' detention in a fortress.

The military organization to which these revolutionaries belonged was disbanded, but it is believed that it was recently re-formed. Helen Sogoloff, with whom Admiral Chagin was in love, is reported to have been one of its emissaries. Thanks to her influence with him, the unsuspecting officer was made use of to facilitate the access of revolutionaries to the imperial yacht, and the attempt on the czar's son was rendered possible.

A Frenchman with a name spelled a la Paris and pronounced something like Cachoo had never learned to read or write, but he managed to disguise the fact pretty well until he moved to a new community, where the name was not common. Going to the post office one morning, he enquired:

Get any mail for Joe Ca-choo.

How do you spell it?

Can't you spell Joe Ca-choo?

No, said the clerk. I never heard it before.
